

If you have upcoming media facade projects, we would like to develop a first budget-estimation, based on the following standard questionnaire (after the completion of the form please send it by email to [info@nedit.com](mailto:info@nedit.com) or by fax to +49 2452 3941):

**1.) Which part(s) of the facade shall be faced with the NEDIT MediaFace?**

Usually these conditions will be specified by the architects. Please attach drawings of the facade(s) with marked NEDIT MediaFace areas and specified dimensions, as well as pictures or renderings of the building(s).

---

---

**2.) Would you like to install the NEDIT MediaFace in front of the glass facade (outdoor) or behind the glass facade (indoor)?**

Please note for the installation behind the glass facade, that the panes in front of the NEDIT MediaFace must be uncoloured (neutral colour transparency) and the translucence should be greater or equal 70%.

---

---

**3.) Which peripheral static/mechanical fixing points can be made available on site for the installation of the NEDIT MediaFace?**

Please attach drawings and information about the load-carrying ability.  
(not necessary for the first budget estimation and can be given later)

---

---

**4.) Do you need the visibility only during the night (less expensive) or during daytime too?**

night only

day and night

**5.) Range of minimum viewing distance (e.g. >25m or >100m or >200m or ....)**

---

---

**6.) What will you show on the NEDIT MediaFace? <sup>\*1)</sup>**

only colour shades (most budget-friendly)

low resolution graphics

fitted videos

TV video (most expensive)

<sup>\*1)</sup> Please note that the system always is video capable. If it will be possible to show video and the quality of image depends on the resolution which is wanted and/or applicable due to the size of the screen.

**7.) Importance of the transparency of the media facade solution (grading and reason)?**

---

---

**8.) In order to avoid multiple offers for the same project via different contacts we need the name and the address of the final customer and the name and the address of the project. <sup>\*1)</sup>**
